

## Search for Solar Physics Data Products:

*If you're new to the VSO, see [How To Search](#), the [FAQ](#) or click the [icons for online help](#).*

Please select which values you wish to use to search for data products:

- Time**
  - Search by time interval.
  - [Derive time intervals from event catalogs](#)
- Observable**
  - Search based on physical observables [i](#)
- Instrument / Source / Provider**
  - Search based on instruments [i](#) or data archives [i](#)
    - Compact listing
    - Instrument / Source (not provider dependent)
    - Instrument Only (not source or provider dependent)
- Spectral Range**
  - Search based on a spectral range
- Nicknames**
  - Search based on common terms used to describe data products
  - Note:** Nicknames generate an intersection with other search terms, so searching for a nickname, and a physical observable (or other parameter) when a nickname defines other physical observables will result in no matches.
    - Show Nickname Definitions
